

## Mobile Developer (React Native)

Bangkok, Thailand

We are looking for a React Native Developer with experiences building efficient mobile applications for both iOS and Android platform.

Vonder is an EdTech startup aiming to make learning more fun and interactive. We build a game-based Software-as-a-Service (SaaS) where educators and HR managers can manage knowledge through chatbot, create real-time pulse survey and generate micro learning games within a few minutes.

Founded in 2018, Vonder joined Stormbreaker Venture and received seed investment from high profile investors. The team also won EdTechX Thailand 2019 to represent Thailand at EdTechX Global 2020 in London, United Kingdom.

This is an amazing time to join Vonder as we're growing really fast with seed funding and currently delivering products to several high-profile corporates.

### What React Native Developer will do

- **Develop** Vonder iOS and Android app with high quality and maintainable code
- **Conduct** high quality code review and improve the code structure and architecture in the codebase
- **Diagnose** and fix bugs and performance bottlenecks for performance that feels native
- **Work closely** with Developers, Designers and Data engineers to build beautifully designed products

### Qualifications

- Bachelor Degree in Information Technology, Computer Science, or other related fields
- Minimum of 1-2 years experiences in mobile application development
- Strong React Native knowledge
- Past projects that show an aptitude for engineering and product sense
- Can give and take feedback professionally, not personally
- Enjoy seeing millions of users running your code

### Compensation

- 40k-60k based on experiences and competency
- Employee Stock Options
- Health insurance (gold package)
- Social Security
- Learning Allowances (THB 20,000)
- 15 days of Annual Leave
- 30 days of Sick Leave
- Opportunity of attending overseas developers' seminar, workshops, etc.
