

Product Designer (UX/UI)

Bangkok, Thailand

We are looking for a Product Designer (UX/UI) who is passionate about turning concepts and insights into beautifully designed prototypes for mobile application.

Vonder is an EdTech startup aiming to make learning more fun and interactive. We build a game-based Software-as-a-Service (SaaS) where educators and HR managers can manage knowledge through chatbot, create real-time pulse survey and generate micro learning games within a few minutes. Founded in 2018, Vonder joined Stormbreaker Venture and received seed investment from high profile investors. The team also won EdTechX Thailand 2019 to represent Thailand at EdTechX Global 2020 in London, United Kingdom.

This is an amazing time to join Vonder as we're growing really fast with seed funding and currently delivering products to several high-profile corporates.

*** Online Portfolio is a must.**

What Vonder's Product Designer will do

- **Design rapidly** features across the entire product lifecycle and multiple product launches
- **Understand deeply** use cases of end users. Find the way to discover what pain bothers them and turn these data-informed insights into prototypes
- **Work closely** with Developers, Content Creators to find practical solutions to design challenges
- **Decide boldly** when it is best to change design that doesn't function properly and try another approach in a short timeframe

Minimum Qualifications

- Bachelor Degree
- Proficient in Adobe Creative Suite, esp. Illustrator and XD. Experience in Animation and VDO editing is a plus
- Have good taste and sense of design
- Have a people-focused design mentality and want to design products that truly have meaningful impact for users, not just for artistic purpose
- Possess a strong understanding of usability and user experience principles.
- You can both give and take feedback professionally, not personally
- Ability to speak confidently to your own design work and convince others of your reasoning.
- Experience writing CSS and HTML is a huge plus

COMPENSATION

- 20k-40k based on experiences and competency
- Health insurance (gold package)
- Social Security
- 15 days of annual leave
- 30 days of sick leave
- Opportunity of attending overseas design seminar, workshops, etc.
